

The Hubert H. Humphrey Fellowship Program
A Program for Mid-Career Professionals Sponsored by the U.S. Department of State

2017-2018

HUMPHREY FELLOWSHIP PROGRAM

The Humphrey Fellowship Program provides young and mid-career professionals from designated countries in Africa, Asia, Latin America, the Caribbean, the Middle East, Europe and Eurasia with an opportunity to enhance their professional capacities through participation in specialized 10-month non-degree programs developed specifically for small clusters of Humphrey Fellows at selected U.S. universities.

The Humphrey Program was launched in 1978 to honor the memory and accomplishments of the late U.S. Senator and Vice President, Hubert H. Humphrey.

PROGRAM OBJECTIVE

During their year-long stay at a host American university, Humphrey Fellows are invited to take graduate courses relevant to their professional interests. However, as the Humphrey Fellowship is not a degree program, participants spend a considerable portion of their time engaged in professional development activities including: consultations and affiliations with U.S. faculty and experts, field trips, workshops, research projects and the development of practical useful strategies that could be applied in the Fellows' home countries.

Important Note:

Plagiarism: Plagiarism is unacceptable. All applications will be checked and rejected in case of plagiarism. Plagiarism is using someone else's ideas or work without proper or complete acknowledgment. Plagiarism encompasses many things, and is by far the most common manifestation of academic fraud. For example, copying a passage straight from a book into a paper without quoting or explicitly citing the source is blatant plagiarism. In addition, completely rewording someone else's work or ideas and using it as one's own is also plagiarism. It is very important that students properly acknowledge all ideas, work and even distinctive wording that are not their own. However, certain information in any discipline is considered "common knowledge" and may be used without acknowledgment. What is considered to be common knowledge varies among fields; when in doubt consult a professor or TA. Students unsure of how to properly acknowledge a source are encouraged to consult an RA, TA, professor or manual of style.
